Dear Paul,

As you know, Harold is in court with regards to the spectro business.

Both of us now have tapes from Goldberg's original cassette of that hallway meeting with Dr.Guinn. Unfortunately, the tape is very difficult to transcribe, and Harold notes that although nobody intended it that way, the tape requires the kind of knowledge you get from having been there. He says that as Guinn talked, you made notes. Could you please send him a xerox of any Guinn notes you made--- or better yet, expand ~~xxxxx~~ them into some form of readable memo, so we will have the most complete copy possible of just what Guinn was saying out there in the hallway??

I'd appreciate a copy of anything you have, or create, in connection with this.

Thanks.

Regards,

David Lifton
